SKILLS

- Next.js
- React
- TypeScript
- JavaScript
- Node.js
- Express.js
- PostgreSQL
- Prisma ORM
- Tailwind CSS
- NextAuth/Auth.js
- Supabase
- Docker/Docker Compose
- Git/GitHub
- REST APIs
- VPS Deployment

LANGUAGES

English — Advanced

Ukrainian — Native

Romanian — Basic

EDUCATION

Mate Academy

Full-Stack Developer Program

Bachelor's Degree in Languages

ABOUT ME

Full-Stack Developer with a strong frontend focus, building modern web applications with React, Next.js, TypeScript, and Node.js. Experienced in developing responsive user interfaces, REST APIs, authentication, and database-backed applications with PostgreSQL. Comfortable working across the full development cycle, from UI implementation and backend architecture to deployment.

FEATURED ROJECTS

Course Progress Tracker | [Live Demo](#) | [Github](#)

React • TypeScript • Node.js • Express • PostgreSQL • Prisma • Docker

Full-stack course management app with lesson organization and automatic progress tracking. Built an Express REST API with PostgreSQL/Prisma and containerized the full stack with Docker Compose.

Diet Tracker | [Live Demo](#) | [Github](#)

Next.js • React • TypeScript • Tailwind CSS • NextAuth • PostgreSQL

Full-stack nutrition app for tracking meals, products, and body weight. Implemented authentication, user-isolated data, CRUD flows, PostgreSQL persistence, and USDA API integration.

React Phone Catalog | [Live Demo](#) | [Github](#)

React • TypeScript • SCSS • React Router • React Context

Responsive e-commerce frontend with product browsing, filtering, and navigation. Built reusable components and client-side state management with React Context.
